SUMMARY

As an aspiring tech enthusiast and Frontend Web Developer, I am presently honing my Software Engineering skills at ALX. I specialize in transforming intricate designs into visually appealing and user-friendly responsive websites. My passion lies in delving into various front-end frameworks to elevate user experiences. With training from the UKZN Tech Society and ALX, I have acquired a robust skill set, making me an effective communicator and a valuable team player. I am committed to taking on dynamic tech challenges head-on and offering cutting-edge solutions.

WORK HISTORY

Tech Society Member

- 2023

UKZN Tech Society, Durban

Participated in educational workshops, seminars, and events to enhance the technical skills of UKZN students, fostering a supportive environment, and providing practical exposure to emerging technologies.
